Higher Fees After Date:

Details:

Dear colleagues,

We would like to draw your attention to the upcoming 10th International Conference of Computational Methods in Sciences and Engineering that will be held in Athens, Greece, on 04-07 April 2014.

Detailed information can be found at the website of the conference: http://www.iccmse.org/

Within this conference we (professor Marie-Christine Record and I, Aix-Marseille University, France) are organizing a symposium called “Simulations at the Atomic Scale of Materials Properties for Energy Storage and Conversion”.

For more information see http://www.iccmse.org/sessions_minisymposia.htm item #32.
The symposium will cover all aspects of simulation, namely theoretical developments as well as applications, pertaining to energy storage and conversion (batteries, photovoltaics, thermoelectrics, piezoelectrics etc.).

The *deadline* for submitting abstracts is **February 28, 2014**.

We invite researchers working in these fields or related ones to submit their abstract by email to:

Pascal Boulet: pascal.boulet@univ-amu.fr
Marie-Christine Record: m-c.record@univ-amu.fr

Best regards,
Pascal Boulet and Marie-Christine Record
